SDG 1 — No Poverty

SDG 10 — Reduced Inequalities

AI-Powered

Team: Mythili K · Harini N · Yuvashri Sasikala

College: Shrimathi Devkunvar Nanalal Bhatt Vaishnav College For Women

SDGs Aligned with the Project

SDG 1

No Poverty

Helps citizens access financial benefits, housing, food, and employment schemes — directly reducing poverty.

SDG 10

Reduced Inequalities

Bridges the information gap between rural/urban poor and government welfare programs, reducing systemic inequality.

SDG 8

Decent Work & Economic Growth

Guides users to MNREGA and employment schemes, providing guaranteed wages and economic opportunity.

SDG 3

Good Health & Well-being

Connects families to Ayushman Bharat (₹5L health insurance) and PM Matru Vandana maternity benefits.

Problem Statement

Millions of people across India — both in rural villages and urban cities — are unaware of government welfare schemes they are eligible for. Complex paperwork, language barriers, and lack of awareness prevent them from accessing benefits like free housing, health insurance, farm support, and scholarships.

A farmer may not know about PM Kisan

A pregnant woman may miss maternity benefit

A student may never apply for scholarship

This information gap directly increases poverty and inequality.

Solution & AI Elements Used

The Village Scheme Finder Bot is an AI-powered chatbot that instantly matches citizens to eligible government welfare schemes based on occupation, income, state, and family situation — completely free.

NLP & Keyword Extraction

Parses free-text queries to detect user intent and extract relevant information from natural language input.

RAG-Style Architecture

User queries retrieve the most relevant scheme details from a curated knowledge base of 12+ government schemes.

Agentic AI

Context-aware multi-turn conversations that dynamically personalize scheme recommendations per user profile.

Prompt Engineering

Structured response formatting with benefit summaries, step-by-step application guidance, and document checklists.

Rule-Based Scoring

Weighted matching algorithm ranks and recommends the most eligible schemes based on multiple profile attributes.

HTML / CSS / JavaScript

Frontend built with vanilla web technologies — zero installation needed, runs in any browser for maximum accessibility.

Scheme Finder AI

Ask me about any government scheme

Vanakkam! 🙋 Welcome to Village Scheme Finder Bot.

I will help your family find government schemes for housing, food, jobs, health, and education — completely free.

You can fill the profile form on the left, click a quick option, or just type your situation below!

Find schemes for: Student, income Below ₹50,000, Tamil Nadu

Based on your situation, here are the government schemes you can get:

National Scholarship Portal

Benefit: Scholarship ₹1,000–25,000 per year for studies

Students from SC/ST/OBC/minority communities and poor families can get scholarships ranging from ₹1,000 to ₹25,000 per year for school and college fees, books, and hostel.

Amma Scheme (Tamil Nadu)

Benefit: Subsidized rice ₹1/kg, dal, and other essentials

Tamil Nadu ration card holders get rice at ₹1/kg, dal, sugar, kerosene, and other essentials at heavily subsidized prices through fair price shops.

MNREGA (Mahatma Gandhi NREGA)

Benefit: 100 days guaranteed work per year at ₹250–350/day

Any adult in a rural household can get 100 days of guaranteed government work per year. You earn ₹250–350 per day depending on your state. If no work is given in 15 days, you get an unemployment allowance.

Free

Always Free to Use

Reduces poverty by ensuring eligible citizens receive financial benefits they are entitled to

Bridges the information gap between rural communities and government welfare schemes

Saves time and effort — instantly matches users to schemes without visiting government offices

Empowers women by highlighting maternity, LPG, and girl child schemes specifically

Increases scholarship uptake among low-income students, reducing school dropout rates

Improves healthcare access by connecting BPL families to Ayushman Bharat health insurance

Directly contributes to SDG 1 (No Poverty) and SDG 10 (Reduced Inequalities)

Responsible AI Considerations

Fairness

No assumptions based on caste, religion, or gender. All users are treated equally and matched to schemes only by their profile.

Transparency

Users see exactly why a scheme was recommended — benefit, eligibility criteria, and application steps are shown clearly.

Privacy

No personal data is stored or transmitted. All matching happens locally in the browser — zero data retention.

Ethics

No misleading claims. Only verified government schemes with accurate benefit amounts and correct application procedures.

Accessibility

Simple language, emoji icons, and regional greetings (Vanakkam) ensure usability even for low-literacy users.

No Bias / Free

No ads, no paid promotions, no middlemen. Every recommendation is based purely on user eligibility, always free.

Thank You
